

## Library

The CEDOCIT (Documentation Center of the Earth Sciences) has a library specialized in Earth Sciences, in which are placed all the bibliographic material required by the Organism to support the development of their projects and research from its founding in 1944 until today, so you can locate copies of historical works as well as the latest advances in these topics.

Its collection provides valuable information in the various disciplines of the Geosciences, supports research that makes the technical staff of the institution and its consultation is open to public in general.

Bibliographic materials are grouped in four composed 6074 books, 1699 University degree and postgraduate thesis, 569 collections brochures, 600 titles of journals specialized and 200 compact disk.
